EDUCATION

National University of Sciences and Technology (NUST H-12) – B.Sc. Computer Science – **CGPA: 3.4** *(Top 10%)* *2025 – 2029*

Key Courses: Data Structures and Algorithms (C++), Artificial Intelligence (Python), Information Security, Computer Networks, Database Management Systems, Object Oriented Programming (Java).

Government College University (GCU), Lahore – Intermediate (ICS) – **Percentage: 90%** *(Top 3%)* *2023 – 2025*

PROFESSIONAL EXPERIENCE

KONVISTEQ – *Software Engineer Intern* *June 2026 – Aug 2026*

- Improved **user retention by ~10%** for **1,500+ users** by redesigning **10+ screens** of **AmzoApp**, the firm's invite-only investment app, in **Flutter**.
- Fixed a critical **Node.js API** bug where data was not passing through, restoring users' **balance and history**.

Vyro (ImagineArt) – *UGC Intern* *Feb 2026 – April 2026*

- Cut **end-user design time by 50%** by optimizing ImagineArt's node-based AI workflows, and published **60+ promotional posts** monthly across **3 Instagram accounts** using Generative AI.

TeleCrew – *Backend Developer* *Aug 2025 – Jan 2026*

- Increased **sales conversion by 30%** by building RESTful APIs with **Node.js** to send lead data directly into **HubSpot CRM**, processing **2000+ US-based leads.**
- Supported the **onboarding of 5 new US partnerships** with a data-tracking dashboard in **React** and **MongoDB**.

Mehndley – *Founder & Full-Stack Developer* | mehndley.fly.dev *2026 - Present*

- Eliminated the need for desktop audio software by deploying a **full-stack web app** for custom dance medleys using **Node.js, Express, and WaveSurfer.js** on **Fly.io**.
- Reduced medley creation time from **30 minutes to under 5 minutes** by running **FFmpeg** renders as non-blocking child processes with live progress over **Server-Sent Events**.

Kirnaain (NGO) – *Co-Founder & Director Web & IT* *2024 - Present*

- Boosted **volunteer applications by 50%** with the organization's first responsive **React** website, and cut **coordination time by 40%** using a **Supabase** backend and **Python** scripts on **GitHub Actions**.

PROJECTS

LendAHand (Task Marketplace Platform) – *Full-Stack Web App* | lendahand-vzv6.onrender.com *2026*

- Built a **student task marketplace** using **React, TypeScript, Node.js, Tailwind CSS**, and **Prisma/PostgreSQL**, secured with **JWT/bcrypt auth** and **Zod** validation.
- Added live **Leaflet maps** to find nearby tasks and a **Gemini AI integration** to help users estimate fair service prices.

Pakistan Stock Market Simulator – *DBMS Project (MySQL Backend)* *2026*

- Designed a **3NF MySQL** database of **12 core entities** with a dashboard, **cutting query latency by 40%** for **10,000+ trades**.

LEADERSHIP & ACHIEVEMENTS

AICON'26 Pitch Fest (NUST) – *Team Lead, 1st Place* | ilmcard.vercel.app *Oct 2026*

- Led a 3-member team and pitched **Ilm Card**, an offline learning startup that fits a full school term on **one memory card**, to the judges to win **1st place**.
- Built the startup's **live website** and owned the **financial plan and Rs 7M funding ask** as CFO.

NUST Hack Club – *Deputy Director Human Resources* *2026 - Present*

- Executed **2 large-scale hackathons** accommodating **500+ participants** and managing a **20-member team**.

NUST Book Club – *Director Media* *2026 - Present*

- Lead a **12-member media team** that plans, covers and promotes the club's events.

SKILLS & INTERESTS

Languages: C/C++, Java, JavaScript, TypeScript, SQL, Python, HTML, CSS
Backend: Node.js, Express
Frontend: React, Flutter, Vite, Next.js, Tailwind
Databases: MySQL, PostgreSQL, Prisma, SQLite, Supabase, MongoDB, Oracle
DevOps & Tools: Git/GitHub, Vercel, Docker, Railway, Render, Fly.io
