Professional Profile

Creative and results-driven BS Computer Science student at NUST with extensive experience in media management for non-profits and student organizations. Proven track record in brand building, social media growth strategies, and content direction. Skilled in translating organizational goals into compelling visual narratives and leveraging generative AI tools to enhance video production and digital asset creation.

Experience

Social Media & AI Content Manager | ImagineArt - Vyro | February, 2026 – Present

- Manage 3 different Instagram accounts, creating and posting regular promotional content for each page.
- Use ImagineArt's AI tools to design and publish over 20+ high-quality posts and graphics on each account per month.
- Gained hands-on experience prompting and interacting with AI, which cuts down normal design time by 30-40%

Director Media | Baharan (NGO) | Lahore 2024 – 2025

- Led the media department for a prominent Lahore-based NGO, overseeing all visual communication and public relations strategies.
- Directed coverage for major welfare drives, resulting in increased digital engagement and donor awareness.
- Managed a team of creatives to produce consistent, high-quality content for social platforms.

Deputy Director Media | Kirnaain (NGO) | Lahore 2024 – 2025

- Assisted in formulating media campaigns that highlighted the organization's social impact.
- Coordinated photography and videography for on-ground events to ensure real-time social media coverage.
- Streamlined the content scheduling process to maintain an active online presence.

Social Media Manager | Khushbo (Fragrance Brand) | Project-Based

- Launched and managed the digital presence for a new perfume brand.
 - **Key Achievement:** Executed an organic growth strategy that gained **100+ followers in just two weeks.**
 - Designed aesthetic product showcases and reels to define the brand's visual identity.
-

Academic Projects

Campus Chaos: NUST Edition | Fundamentals of Computer Programming (FOCP)

- Developed a 2D survival game using C++ and the SFML library, featuring custom game mechanics and object-oriented design.
 - AI-Integrated Design: Engineered the game's entire visual identity by generating all sprites, backgrounds, and UI elements using AI image generation tools, ensuring a cohesive and high-quality aesthetic without traditional graphic design resources.
-

Leadership & Campus Involvement

National University of Sciences and Technology (NUST) | 2025 – 2026

Media Executive | NUST Entrepreneur Club (NEC)

- Collaborating on media campaigns to promote entrepreneurial events and startup culture on campus.

Media Executive | NUST Excursion Club (NXC)

- Documenting travel and recreational events, creating high-energy content to boost student participation.

Media Executive | NUST ACM Student Chapter

- Creating technical and event-based content for one of the leading computing societies at NUST.
-
